Dear Mr. Szilárd Kisapáti,

I am writing to express our appreciation for the excellent work over the last fifteen years that Ventonus Kft. has done for Mitsubishi Electric HVAC products in cooperation with our distributor M-Klima in Hungary. We are proud of being considered in a number of HVAC design solution projects by Ventonus, and have consistently been impressed by their level of expertise and professionalism.

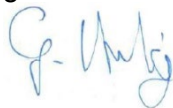

Ventonus has proven themselves as a highly professional design and engineering company in HVAC design solution projects equipped with Mitsubishi Electric products. Their team has demonstrated the ability to think creatively and develop innovative solutions that meet our technical requirements.

Mitsubishi's distribution partner M-Klima has always appreciated Ventonus' strong communication skills, which have helped to ensure that projects are completed on time and within budget. They have been professional in their interactions with us.

We look forward to working with them again in the future.

Best regards,

Mitsubishi Electric Europe B.V.
